EXECUTIVE SUMMARY

I have built amazing projects that simplify unnecessary problems and make life easier. I want to be a part of your journey. My eagerness to learn, grow, and create wonderful things pushes me to keep working hard and I see no better place to grow than JPMC.

PROJECTS

- **Plant Disease Detection and Prevention AI**
  - *A web application allows users to upload pictures of their crops, and our fine-tuned ML model gives predictions on whether the crop is healthy or not, along with tips on curing the disease.*
- **Smart Home System**
  - *An ESP32 based Hardware project that interacts with connected appliances through Google Assistant Commands*
- **Kovai Natural Farms**
  - *An E-commerce Web app that connects organic food producers and local shopkeepers for farmers to sell their crops without the need for an Intermediate Merchant.*

SKILLS

Languages	Python, C, C++, Java, JavaScript, MatLab.
Frontend Technologies	ReactJs, Tailwind CSS, HTML, CSS.
Backend Technologies	Node, Express, PHP, MongoDB, MySQL.
Tools	Git, Figma, Canva, Terminal, Docker.

EDUCATION

- **Vellore Institute of Technology, Chennai**
  B.Tech in Electronics and Computer Engineering – 2nd Year
  CGPA: 9.08 / 10
  Activities: Volunteering for local Schools, participating in University Hackathons, and Building Projects.

EXPERIENCE IN WOKING FOR CLUBS

- **VITeach:** *It is a volunteer-based club where we teach kids from local Schools, Orphanages, and Online Programs. I have been an active volunteer for this club for the past 1 year.*
- **CodeChef**: *I have been a Web Development and UI/UX member for the CodeChef VIT Chennai Chapter for the past 4 months.*
